HIGHLANDER

life's all about what you can fit in...

Highlander's bold new styling evokes the classic sturdiness of an SUV, making it the ideal body size for modern life - not too big, not too small.

Highlander drives and handles like a car, has the space and convenience of a station wagon, the ground clearance of an SUV to tackle off-road conditions, and seven seats like a minivan.

Style, versatility, power, fuel economy and high level of standard features - along with the choice of entry level 2WD and 4WD, plus the flagship 4WD Limited makes Highlander the perfect all-round vehicle.

EXTERIOR STYLING enhancements of chrome accents and sporty black contrasts on the lower section of the front and rear bumpers and rocker panels add extra style to a classy vehicle. Horizontal lines run along the hood to the grille and bumper, creating an upscale feel with narrowed headlights stretching outwards in a strong arrowhead design.

INTERIOR STYLING and CONVENIENCE High gloss silver trim against the black interior colour scheme gives Highlander a sophisticated, luxurious look.

Expansive cabin space caters for up to seven adults with easy entry and exit and an expandable luggage area you won't be limited in any way. All models have 7 seats with the second row able to be re-configured from 3 to 2 seats with a tray between. The second and third row seats fold flush to provide more luggage space - up to 2,700 litres.

Convenient interior features include an audio system with auxiliary and USB connection for your MP3 player, Bluetooth phone connectivity, a reversing monitor and steering wheel switches that allow you to control common functions.

THE EXTRA SAFETY of eleven airbags come standard on all models. This includes front airbags for the driver and front passenger seats, along with a knee airbag for the driver. In addition, the driver and front passenger seats have side airbags, and curtain shield airbags provide side protection from the front right down to the third row seats.

THE DRIVE and HANDLING is unlike any other. Extensive sound-proofing and engine noise reduction makes it peaceful and quiet inside.

The sophisticated transmission can judge if the vehicle is travelling up or downhill and hold gears accordingly to provide better acceleration uphill and increased engine braking downhill.

Boasting a 3.5 litre V6 engine Highlander's dual VVT-i (Variable Valve Timing - intelligent) technology optimises power and fuel economy. It also complies with stringent Euro IV emission standards.

THE ON AND OFF-ROAD CAPABILITY of HAC is designed to help stop the vehicle from rolling backwards when starting off up a steep hill. By providing braking pressure to all four wheels for approximately two seconds, it suppresses rollback for a smooth start. DAC keeps a constant low speed when negotiating steep descents to allow the driver to maintain control.

All Highlander models have a SNOW function which minimises wheelspin for improved traction when driving on slippery surfaces. When pressed, the snow function will start the car from standstill in second gear and adjust the engine response.

Perfectly suited for towing the boat or trailer, Highlander has a 2,000kg braked towing capacity.

...Highlander has something to offer everyone.

Feel the smooth, quiet ride of the new Highlander powered by a 3.5 litre V6 dual VVT-i engine.

The benefits of DAC and HAC.

Downhill Assist Control (DAC) keeps a constant low speed to maintain vehicle control on steep terrain.

When starting out up on steep gradients, Hill-start Assist Control (HAC) prevents the vehicle from rolling backwards.

FACTS AND FIGURES

→ Overall length:	4785mm
→ Overall width:	1910mm
→ Overall height:	1760mm
→ Wheelbase:	2790mm
→ Approach/departure angle:	29°/24°
→ Seating capacity:	7
→ Luggage capacity behind 1st row:	2700L
→ Luggage capacity behind 2nd row:	1200L
→ Luggage capacity behind 3rd row:	290L
→ Kerb weight:	1830-1940kg
→ Gross vehicle weight:	2630kg
→ Max towing capacity - braked/unbraked:	2000/700kg

All Highlander models have a glass hatch in the rear door, enabling luggage to be loaded and unloaded simply, without opening the tailgate.

All Highlander models have a multi-information display with a 3.5 inch colour screen that displays the view from the reversing camera, trip computer and, on the 4WD Limited, incorporates climate control information.

HIGHLANDER 4WD IN CRYSTAL PEARL

HIGHLANDER 4WD IN CRYSTAL PEARL

A retractable tonneau cover can be used to conceal your belongings and also locks into a half open position. Storage has been created under the floor for the tonneau cover.

The audio system in all models have an input jack, USB connection, Bluetooth handsfree phone capability and audio streaming.

The second row middle seat in Highlander can be easily removed, enabling the two remaining seats to become captain's chairs. When not in use, the centre seat can be replaced with a removable tray with two cup holders and a lidded storage compartment. This stows under the front centre console when not required. The tilt and sliding second row seats give easy access to the third row seats.

Third row seats are split 50/50, providing flexibility to carry cargo, passengers, or both. Folding the second row seat backs is made easy in the Limited model with one-touch levers conveniently located inside the rear load space.

HIGHLANDER 4WD LIMITED

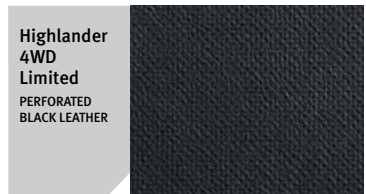

11.6L/100km* 271g/km*

The 4WD Limited model adds an extra element of sophistication and luxury.

Roof rails add to Highlander's already impressive style, while increasing practicality and load carrying capability.

Front seat occupants in the Limited can enjoy added comfort on cold mornings with heated seats.

Highlander
4WD
Limited
PERFORATED
BLACK LEATHER

The perforated black leather seat trim sets the Limited model apart. Occupants also enjoy dual zone climate control air conditioning. High quality black seat material accentuates the undeniably refined interior in both 2WD and 4WD models.

The driver's seat is the best place to be. The Limited model steering wheel controls with audio, multi information and air conditioning controls add to driving pleasure and car-like handling with spirited V6 performance makes the driving easy.

The gate-type sequential 5-speed automatic transmission enables manual-like gear changes.

Highlander 2WD standard features:

The 3.5 litre 2GR-FE petrol engine is a V6 24 valve DOHC (Double Overhead Cam Design) with dual VVT-i (Variable Valve Timing-intelligent). Maximum power of 201kW is produced @ 6200rpm and maximum torque is 337Nm @ 4700rpm. Electronic fuel injection system.

91 octane petrol is acceptable. Fuel tank capacity is 72 litres.

Fuel consumption* 11.0L/100km; CO₂ emissions* 259g/km.

5-speed electronically controlled automatic transmission (Super ECT) with artificial intelligence (AI), lock-up torque converter and sequential manual mode. Front wheel drive.

Front suspension has MacPherson struts with coil springs, gas/hydraulic shock absorbers and stabiliser bar. Rear suspension has dual link MacPherson struts with coil springs, gas/hydraulic shock absorbers and stabiliser bar.

Electronic Power Steering (EPS) with 3.1 turns lock to lock. Minimum turning circle is 11.8m.

Braking is by power assisted ventilated front and solid rear disc brakes with tandem master cylinder and dual circuit split hydraulic system. Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist (BA). Traction Control (TRC) and Vehicle Stability Control Plus (VSC+), Hill-start Assist (HAC). Pedal type parking brake.

7.5J x17" alloy wheels fitted with 245/65R17 steel belted radial ply tyres. Full size spare wheel.

Eleven airbags included: driver and passenger front, front side, driver's knee and three row curtain shield.

2x3 point ELR front seat belts with pre-tensioners and force limiters; 3x3 point ALR/ELR second row seat belts; 2x3 point ELR third row seat belts; adjustable front seat belt anchors.

Child restraint system with 3 tether points; child proof rear door locks.

Side door impact bars; high stop light.

Halogen headlights with light control system.

Tinted laminated windscreen; washer-linked variable intermittent wipers; green tinted front side glass; grey tinted rear side and rear glass; radio antenna in rear window glass.

Power windows with driver's one touch auto up/down, anti-jam safety function and key-off operation.

Black interior trim with high grade fabric seat material; front seats with slide and recline functions, driver's seat height and tilt adjustment; active front headrests; 40/20/40 split folding second row seats with slide and recline functions; removable second row centre seat for conversion to captains seat with inner armrests; removable second row convenience tray with cup holders and storage area; 50/50 split folding third row seats with fold flat function.

4 spoke urethane steering wheel with audio and multi information controls; cruise control.

AM/FM radio with single disc in-dash CD player with audio input jack, USB connection, Bluetooth handsfree phone capability and audio streaming, six speakers and security system.

Reversing camera with 3.5" TFT (Thin Film Transistor) display.

Manual front air conditioning; clean air filter.

Engine immobiliser and alarm, remote central door locking on all doors with answer-back function and glass hatch opening switch; rear tonneau cover.

Front (2) and rear (1) accessory power outlets.

Body coloured exterior rear view mirrors with retract function and puddle lights. Rear mudflaps.

Highlander 4WD adds:

Full time 4WD system.

Fuel consumption* 11.6L/100km; CO₂ emissions* 271g/km.

Down-hill Assist Control (DAC) with on-off switch.

Highlander 4WD Limited adds:

7.5J x19" alloy wheels fitted with 245/55 R19 steel belted radial ply tyres. Full size spare wheel.

Front fog lights.

4 spoke leather steering wheel with audio, multi information and air conditioning controls.

Black interior trim with perforated leather seat material; front seat heaters; power adjustable front seats with slide and recline functions, driver's seat height and tilt adjustment; leather gear lever with metallic trim. Driver's seat leg support system and power lumbar support.

Second row seats remote tilt down function.

Front climate control air conditioning with driver and passenger independent temperature controls; rear climate control air conditioning with LCD display.

AM/FM radio with six disc in-dash CD changer with audio input jack, USB connection, Bluetooth handsfree phone capability and audio streaming, six speakers and security system.
